## January 9, 2024 — My Favorite Woodworking Jig

If you are an experienced woodworker, then you already know the answer to the question, “What is a woodworking jig?” But if you are new to woodworking, you might be wondering what is a jig. Woodworking jigs are very useful in woodworking shops. They serve as a template for repetitive tasks in measuring, cutting, drilling and more.

Bring your homemade jig and share its purpose, construction and what changes you would make if you made a replacement.

The results of the December survey, regarding possible topics and meeting interests, will be shared during the January meeting. If you did not get a chance to complete a survey and would like to, ask one of the board members for a copy.

If you recall, Lukas Pool, the owner of Ozark Banjo Company, was our scheduled guest speaker for the November meeting however, he had to cancel due to unforeseen circumstances. We have managed to reschedule him to speak at our February meeting.
