

## Upcoming Meeting

Past WAA president *Ken Royal* will discuss moisture in wood and, if not accounted for during construction, how it can mean a bad day for a woodworking project. Additionally, Ken will be demonstrating a few methods that the woodworker can use to help account for wood movement and possibly prevent unexpected consequences.

## Wood for Sale

David Harding has some cherry for sale. Approximately 8 to 10' long, 6 - 7 quarters thick, air dried for five years. Contact David at 501-837-2222 for more details.

## Meeting Recap

President *Tom Huetter* led the brain storming session to solicit suggestions (or demonstrations) for future meeting programs. Many good ideas were suggested, including more hands on demonstrations. Please continue to support our leadership by letting them know what you want to see and/or what you can do to educate the rest of the club. Remember, many of us are new to woodworking so dusting off old topics is acceptable.

## January, 2020
